Sir:

The subject correspondence is being supplied in connection to a notification mailed September 27, 2005, more particularly, in response to allegations that Applicant's declaration of April 27, 2005 is not compliant with 37 CFR 1.497(a) and (b). Specifically, the Office notes that Applicant's declaration is not executed in accordance with either 37 CFR 1.66 or 37 CFR 1.68, and further

"[d]oes not identify David R. Schmidt who is listed on the international application."

As a preliminary, factual matter, Applicant filed **a first and only declaration of inventorship** in the form of a paper captioned COMBINED DECLARATION/POWER OF ATTORNEY FOR PATENT APPLICATION executed April 27, 2005, a marked up copy thereof herewith as **ATTACHMENT A**. The subject declaration was executed in accordance with 37 CFR 1.68, declaration in lieu of oath, with the declarant Mr. Hayes, on the same document, warned that willful false statements and the like are punishable by fine or imprisonment, or both (18 U.S.C. §1001) [Attachment, reference numeral "1"] and that willful false statements and the like may jeopardize the validity of the application or patent issuing thereon [Attachment, reference numeral "2"]; and, with declarant Mr. Hayes setting forth in the body of the declaration that all statements made of his own knowledge are true [Attachment, reference numeral "3"] , and that all statements made on information and belief are believed to be true [Attachment, reference numeral "4"]. Mr. Hayes, in executing the subject declaration, stated his belief that he is the original, first and sole inventor of the subject matter which is claimed and for which a patent is sought in the instant application [Attachment, reference numeral "5"].

In response to the Office's allegation that the subject declaration does not comply with 37 CFR 1.497(a) and (b), we note

a prerequisite for the applicability of the subject rule, namely, that a declaration compliant with §1.497 has not previously been submitted in the international application under PCT Rule 4.17(iv). As is supported by the PCT Request filed November 17, 2003, no declaration as to the identity of the inventor or inventors was provided under PCT Rule 4.17(i) at the time of filing the international application, nor thereafter within the period to do so under PCT Rule 4.17(iv). The **sole** declaration as to inventorship, i.e., that executed April 27, 2005, was supplied in Applicant's 35 U.S.C. §371 filing of that date.

The declaration requirements of 37 CFR 1.497(a), are fourfold, namely, that the declaration: (1) be executed in accordance with either 35 CFR 1.66 or 1.68; (2) identify the specification to which it is directed; (3) identify each inventor and the country of citizenship of each inventor; and, (4) state the person making the declaration believes the named inventor or inventors to be the original and first inventor or inventors of the subject matter which is claimed and for which a patent is sought.

As previously noted, the subject declaration is compliant with 37 CFR 1.68; it included, as an attachment, the specification to which it was directed [Attachment, reference numeral "6"]; it identified each inventor and the country of citizenship of each [Attachment, reference numeral "7"]; and stated that the person making the declaration believes the named inventor to be the

original and first inventor of the subject matter which is claimed and for which a patent is sought [Attachment, reference numeral "5"].

Undersigned cannot recall a requirement in the law, or the rules, wherein a declaration of inventorship in a U.S. national stage application filed pursuant to 35 U.S.C. §371 must list as declarants individuals who may have been identified in Box Nos. II and III of the Request. Quite contrary, among the several requirements of 37 CFR 1.497(a), which applies only when no declaration as to the identity of the inventor or inventors were provided under PCT Rule 4.17(i), is that the declarant(s) state that the inventor/inventors named in the declaration is/are the original and first inventor/inventors of the subject matter which is claimed and for which a patent is sought. Declarant Mr. Hayes has done just that.

Furthermore, herewith as **ATTACHMENT B**, please find a paper captioned DECLARATION OF MIS-JOINDER executed by those individuals identified in Box No. III of the Request, namely Mr. Hayes and Mr. Schmidt. Declarants each assert and attest that Mr. Schmidt was incorrectly identified as an inventor in the international application upon which the subject national application is based, and further assert and attest that Mr. Hayes is the sole inventor.

In light of the above remarks, it is respectfully submitted that the allegations of missing requirements presented in the

Notification are moot, with the subject application compliant with 35 U.S.C. §371, and thusly in condition for examination. Reconsideration is courteously requested.

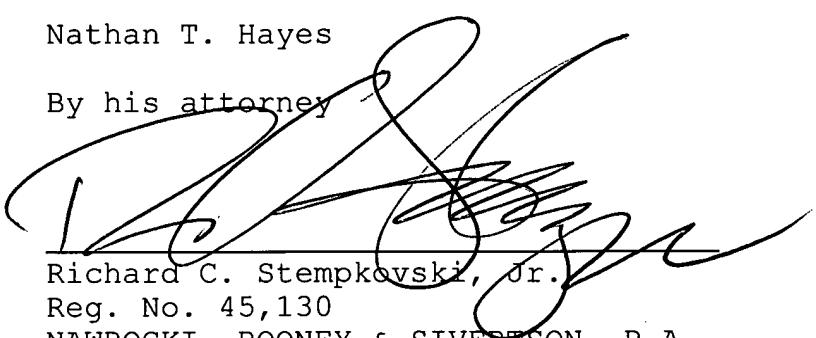

To the extent applicable, please charge any deficiencies or credit any over payment to Deposit Account 14-0620.

Respectfully submitted,

Nathan T. Hayes
